

# Yunpu LUO

Board Member

Senior Partner

Patent Attorney

Authorized Patent Litigator

Mr. Luo graduated from the Department of Mechanical Engineering of Tsinghua University. He ever worked at an engineer at Beijing Inter-Combustion Engine Corp. for years. Then Mr. Luo worked as a Beijing representative of a Japanese NC machine tool company. During this period, he was many times in Japan for trainings relating to manufacturing of machine tools, numerical control systems, and quality management. He was a core member of the Japanese company in the whole process of establishing a joint venture company in Beijing. He has good knowledge about the philosophy and culture of Japanese enterprises. He is well trained in technologies and has a wide spectrum of knowledge.

Mr. Luo joined China Science in 2004 and was qualified as a patent attorney the same year. He is experienced in patent filing, re-examination, invalidation, and patent infringement litigation, especially in the areas of general machines, automobile, home electronics, and printers.
